Innovative Danish Designs since 1971

Introduction

Innovation Living™ is a Danish furniture company built on the proud Danish tradition of furniture design. We believe that form and function must go hand in hand to create innovative durable designs for everyday use.

Since 1989 we have dedicated ourselves to design and development of multifunctional sofa beds, and today we are proud to be able to call Innovation Living™ an internationally renowned sofa bed specialist.

Please enjoy our 2017/18 collection.

Inno toppers with storage bag

A durable and reversible top mattress that will give an even and supportive bedding surface on all adjustable sofa beds. Cover is breathable, removable and machine-washable at hot/120°F. The top mattress comes with a bag for storage when not in use. The bag helps minimizing the volume of the Inno topper for better storage.

Available in 47" x 79", 55" x 79" & 63" x 79".

Choose a top mattress to add extra comfort and protect your sofa bed

Storage bag included

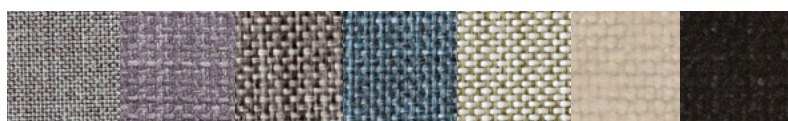

Dapper Cushions

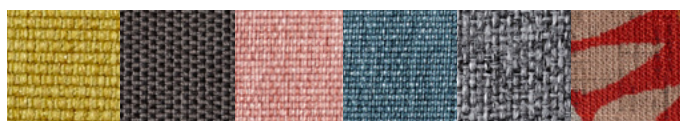

Size: 20" x 20" / Detachable cover / Inside feather mix /

Flammability:

Innovation Living products meet the flammability requirements of California Bureau of Electronic and Appliance Repair, Home Furnishings and Thermal Insulation Technical Bulletin 117-2013.

NO added flame retardant chemicals/toxins known to the State of California to, or strongly suspected of, adversely impacting human health or development have been used in our products.

Cleaning advisory:

Leather looks: Wipe with a moist cloth, do not dry clean.

All other farics: Dry cleaning only.

This is only advisory, please consult with a professional dry cleaner with any cleaning matters.

Per Weiss

Creative Director
Innovation Living Design Office

Per Weiss was born in 1959 in Denmark and is the Director of Innovation Living Design Office International. As an all-round creative person, he started his career as a professional musician, while already studying at the School of Architecture in Aarhus. Then giving a higher priority to his design visions, he worked for some of the famous Danish architects, Friis & Moltke and Schmidt, Hammer & Lassen. In 1988 he graduated as an industrial designer. Since 1989 Per Weiss has been the head of Innovation Living Design Office and responsible for concept, product design and marketing. Per Weiss established a close relationship to Verner Panton during the development of the Phantom chair, Panto Beam, and Panto Pop in 1997-1998. Alongside his works for Innovation Living Per Weiss cooperated with Danish designer Henrik Bönnelycke in their mutual company W&B design works 1997-2000. In 2001 he founded WeissDesignWorks, where he handles product designs that do not fit into the Innovation product range.

About Innovation Living

The Danish Team

Good aesthetic design must go hand in hand with great functionality and good comfort. Therefore, our team of designers, product developers and technical brains work together to integrate it all in every single Innovation Living product.

The Danish designer, Per Weiss, is head of the design department. He has been part of the company since 1989 and is the driving force behind the constant creative development of the collections. Inspired by a Scandinavian design tradition as well as fashion and lifestyle trends, he creates long-lasting design with a contemporary appeal.

History

It all started in 1971 with a good idea in the spirit of the flower power generation, beanbags. The founder, Flemming Højfeldt, started a production of Delta beanbags re-launched in 2006 as the Player beanbag. The small company grew quickly, and as flower power was taken over by the yuppie style, Innovation moved on to upholstery furniture as a sub-supplier to other companies. At the end of the 80ies Innovation Living was ready

for a new adventure. We wanted to produce our own design and launched a competition asking for fashionable and functional sofa bed concepts. The best idea was inspired by old eastern traditions: Natural cotton based mattresses that were flexible enough for multifunctional furniture. One Room Living aka ORL Collection was born.

Innovation Living expanded with an associated company in the USA in 1991, followed up in 1998 with a Chinese office and factory.

With a greater larger production capacity, more collections were made possible. Having production in both China and Denmark adds flexibility which gives us a unique opportunity to meet market demands.

Mutual inspiration and exchange of experience, not at least internationally, assures a constant evolvement and front position of our company.

Values

Good Design

We want to offer furniture that makes a difference in everyday life. Good design that combines style, comfort and functionality. Innovation is not just a name, but what we do. Combining decades

of experience in the furniture business with an eagerness to evolve and surprise. In this way we can offer attractive and useful furniture for modern people.

A Better Environment

Not only our design, but also our company values have a clear vision for the future. Innovation has a certified environmental profile, and all recyclable waste, like cardboard, plastic, iron and metal, is separated and used in other productions. Residual, combustible waste is incinerated in low-pollution plants. Packaging is reduced to the minimum needed for safe transportation.

Happy Employees

All Innovation employees, in Denmark, China and the USA, are given the best working conditions to feel comfortable and perform their best at Innovation Living. The founding value of the company is respect. Respect towards colleagues, customers and environment. Innovation is always trying to produce at a good price, but not at any price!

As an international company we see it as our duty to contribute to better working conditions and a cleaner environment for all.
